APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit is issued subject to all existing rights on the source. It is understood that the 2.5 c.f.s., and not to exceed 56.0 m.g. annually herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to a beneficial use. A meter must be installed in the discharge pipe line near the point of diversion and accurate measurements must be kept of water placed to beneficial use. This permit is subject to the final allocation of the State of Nevada under the Calif.-Nev. Interstate Compact Commission. The State retains the right to regulate the use of the water herein granted at any and all times. This permit is issued subject to the provision that the permittee shall file with the Office of the State Engineer annual records of total consumptive use.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 2.5 cubic feet per second, but not to exceed 56.0 m.g. annually.

Actual construction work shall begin on or before August 27, 1967
Proof of commencement of work shall be filed before September 27, 1967
Work must be prosecuted with reasonable diligence and be completed on or before August 27, 1968
Proof of completion of work shall be filed before September 27, 1968
Application of water to beneficial use shall be made on or before August 27, 1974
Proof of the application of water to beneficial use shall be filed on or before September 27, 1974
